16:00-16:30		**Coffee Break**			**Posters with Coffe**		
16:30-17:00	**EXPLOITATION SEMINAR: Revenue sharing system and Market Exploitation Committee**	**Training on selected examples from different pilot sites at the SIS2B premises (reduced group)**	**WP7 MEETING**	**WP2 MEETING**	**Strategy for a unique A4DEMOS concept for all EU**		
17:00-17:30					**Ideas for the 3rd WORKSHOP**		
17:30-18:30		**EXECUTIVE BOARD MEETING**					

19:00-22:00	**VISIT OF BASTIA** **by open bus and** **dinner with singers Corsicans in the garden of the Palace of the Governors** **(Offered by SIS2B)**	**Transfer to Saint Florent for a dinner** **(paid by participants ~ €50 / pax)**	**Reception and Dinner** **at the restaurant TORRE e MARE** **(Offered by SIS2B)**	Dinner (suggestions will be provided)	

The seminar will be held on the 4 days to the hotel ALIVI: http://www.hotel-alivi.com/hotel-bastia (meeting and lunch)

Accommodations will be at the Alivi and hotels nearby (**Pietracap, Thalassa, Gouverneurs, Best Western…etc**.) see attached file.
A logistics minibus and/or bus service will be organized in order to organize the transfer of the participants of the hotels at the Alivi Hotel
Reservations must be made at the earliest in the hotels that have blocked rooms for a few days

*A training day will be organized **following the details given in D6.2 section 8.**
The purpose will be to present the different MH-EWS products and their potential use during emergencies. It will be the occasion to make questions to the developpers and solve all the doubts that the users can have about the use of these products in the A4DEMOS prototypes.
Examples on real cases will be provided in collaboration with the users concerned.
A major objective will be to understand if there are additional products to be added to the present versions of the pilot sites.
Developpers are requested to present poster that can help to better understand the algorithms and their application in real cases. Also users are requested to present posters explaining their experience with cases already analyzed with the A4DEMOS prototypes helping to understand their potential doubts and requests.
In the morning the Training will be in plenary at the meeting venue. In the afternoon the training will be held in the SIS2B Control Centre, and parallel WP technical meetings are possible for those not directly related with the trainings at the meeting venue.

**Experience exchange between SIS2B and A4Cat / A4Lig users. SMALL GROUP. Other users and interested partners please contact Coordination team.

 ***Optional field trip for those staying. To be organized.
