

Feedback Collection

Session Overview

Aim: Collect your feedback on the INLINE forecast products and platform

Based on your experience with the products during this workshop, we want to understand:

- Do you think you could use the INLINE products routinely?
- What should we improve in the INLINE forecast products and platform?

Agenda

1. Organise into groups

2. Discussion – general performance of products: (15 minutes)

- What aspects of the products would encourage you to use them routinely?
- What are the main barriers that would prevent routine use of these products?
- What changes would most encourage you to use the products routinely?

3. Group presentations (10 minutes):

- Someone from your group present a summary of the above discussions

Agenda

1. Rejoin your groups you were part of for the hands-on exercises

2. Discussion – general performance of products: **(15 minutes)**

- What aspects of the products would encourage you to use them routinely?
- What are the main barriers that would prevent routine use of these products?
- What changes would most encourage you to use the products routinely?

3. Group presentations (10 minutes):

- Someone from your group present a summary of the above discussions
